SAINT MARK'S AND SURROUNDINGS

The focal point of your trip will be the most famous square in the world! You will board a boat to travel to Saint Mark's Square. Here you will be met by your local guide, who will take you on a walking tour to discover magnificent art treasures. The first stop will be the Doge's Palace, the symbol of the government of the Republic and at the same time the highest expression of Venetian Gothic architecture. You will visit the Armoury with its collection of over 2000 arms of great historical interest and cross the famous Bridge of Sighs that joins the prestigious and rich palace to the dark and damp cells of the prisons. You will then continue towards the Basilica, which has always been the city's main church, the place in which the Doges were consecrated, and the centre of Venice's religious and public life. You will be enchanted by the splendid contrast between Byzantine and Western architecture, the rich marble decorations and the precious mosaics that have made the basilica famous throughout the world as the "Golden Church". Then you will have a look at Saint Mark's Campanile, which is almost 100 metres high, and the Clock Tower with the two Moors that mark the time, before saying goodbye to your guide. You will linger a little longer in the Square in order to take an unforgettable photograph amongst the most famous pigeons in the world or to wander into the famous "calli" surrounding Saint Mark's. Your guide will await you at the set time for the return journey to the ship aboard the boat.
