

Cruise Dining Reimagined with Dine My WaySM

Our group will be dining at 5:00 pm on this cruise on Days 1, 2, 3 and 6 and we will do round robin seating where after the first night you can switch within our group of tables to mix and mingle.

However, you can easily make other arrangements if you desire to do so.

Enjoy a world of dining options at your fingertips on your next cruise. Dine My Way is all about personalizing your cruise dining experience. Customize your dining time for each day, whether making reservations for the main dining room (which is included) or specialty restaurants (which charge a small fee). Have dinner at the same time each night or change it based on what works for you.* Once on board, you can order food and drinks for delivery wherever you are through OceanNow®. More options at your fingertips means less time waiting and more time to dine your way.
